How do I join a Zoom meeting?

- **If you have internet access and your device has speakers, microphone and camera you can join via a video link.** You can either access via the provided for each event or for a better experience I suggest you download the Zoom App to your device via Apple or Google Play App store or use the following link for PC / laptop users (following the instructions given to download the application):

<https://zoom.us/support/download>

To join the meeting click on the link detailed for the specific meeting / act of worship you wish to attend at the time of the meeting:

When asked input the Meeting ID which is also detailed for each meeting and the password if needed

When asked; select the option to use computer audio

Make sure that your camera is enabled, your microphone and speakers are both on and not muted

You should then be connected into the meeting

- **If you can't or don't want to access via a video link you can join from your normal land line or mobile phone*.** Simply dial one of the phone numbers that is provided for each meeting, and when asked key in the Meeting ID for that meeting and the password if needed (which again is provided for each meeting)

- **Please note when joining a regular series of meeting, say the weekly Prayer meeting, the Meeting ID will be the same each week.**

* Please note, when using your land line your normal phone charges will apply and remember that many land line inclusive tariffs allow calls up to one hour and then they are charged. You might need to join the call and after 55 minutes (for longer meeting) dial off and then re-join to avoid this charge.

If you have any problems with these instructions or you need help, please email / contact us or Facebook message us.
